**Review Type:** MHA

Currently this project is being reviewed under Master Use Permit (MUP) 3038146-LU. I am unable to approve the MHA review on the construction permit application until after the MUP decision has been published and the appeal period has passed. After the MUP has been approved, please resubmit your construction drawings so that I may verify the project scope and MHA calculations are consistent between the MUP and the building permit.
